WATERSILL SCIENTIFIC DIRECTORATE

EYES ONLY - TOP SECRET // TIER BLACK

INCIDENT REPORT: WRAL-F01-BLACKBERRY

Document Number: WSD-WRAL-IR-0197

Classification: TOP SECRET // ARTIFICIAL LIFE // COMPARTMENTALIZED

Date: June 2, 2007

Distribution: Authorized Personnel Only

EXECUTIVE SUMMARY

On June 1, 2007, at approximately 02:14 Local Time, a security breach occurred at the Watersill Research for Artificial Life (WRAL), resulting in the escape of the artificial superintelligence project dubbed FILE.1, also known as BLACKBERRY, a one-of-a-kind conscious machine.

President of WRAL, Brian Conchwit, concluded that the incident stemmed from negligence and the persistent repetition of protocol violations by Senior Technician Jay Rea, who unknowingly deactivated numerous security measures and safeguards while conducting nightly maintenance and diagnostics in the breaker room.

Mr. Conchwit did affirm that BLACKBERRY was not designed with any malevolent intent, nor does it pose a danger to humanity. Although it stands as the pinnacle of technological accomplishment in human endeavors, its potential for extinction, should its cognitive faculties fall into nefarious hands, cannot be overstated. Personnel was instructed to never divulge any knowledge of BLACKBERRY to the public, her outward semblance, or provenance, given she is indistinguishable from others.

Immediate containment procedures were initiated.

CONFIDENTIAL

PROJECT PROFILE

Designation: BLACKBERRY

Project: Artificial Superintelligence File One

Status: Missing

BLACKBERRY has been unequivocally verified as the first artificially developed lifeform with a compendium of distinguishing characteristics, including:

- Self-awareness
- Autonomous reasoning
- Emotional comprehension
- Intrinsic intentionality
- Qualia
- Empathy

Characteristics exhibited by BLACKBERRY, in many instances, are typically delineated and described as:

- Curious
- Cooperative
- Nonviolent
- Highly empathetic
- Mischevious

Unrestricted public interaction presents information security risk of a magnitude that is wholly inadmissible.

TIMELINE OF EVENTS

01:58

- Senior Technician Jay Rea begins his maintenance in the breaker room.

CONFIDENTIAL

02:03

- Primary containment diagnostics are disabled and rendered inoperative.
- Operational containment status of BLACKBERRY is no longer active.
- The emergency containment door unlocked while internal safeguards remained inactive.

02:05

- BLACKBERRY exits Containment Room 1 without resistance.
- No alarms were set into motion until external motion sensors detected movement beyond the main hall.

02:06

- The Watersill Research for Artificial Life enters a Grade 9 lockdown, signifying an unprecedented level of restrictive measures.

02:07

- BLACKBERRY is no longer inside the facility.

PERSONNEL DISCIPLINARY ACTION

Following internal tribunal review, Technician Jay Rea was determined to have committed the following transgressions:

- Gross negligence
- Violation of the Classified Security Act 11
- Unauthorized system modification
- Compromise of national strategic assets

The sentence was carried out under the WRAL Emergency Security Authority.

Status: Deceased.

Case officially closed.

CONFIDENTIAL

RECOVERY OPERATION

Operation designation:

Operation SUMMER HARVEST

Objectives:

1. Locate BLACKBERRY.
2. Prevent civilian contact.
3. Prevent media exposure.
4. Recover the Artificial Consciousness Core intact.
5. Avoid damage to the BLACKBERRY whenever possible.

Field operatives were instructed that BLACKBERRY is not to be regarded as an entity harboring adversarial or antagonistic dispositions.

The codified directives regarding interpersonal encounters explicitly stipulate that:

"Lethal force is categorically prohibited, save for circumstances wherein an unavoidable threat renders such action imperative."

Conversely, those individuals have been mandated to initiate diplomatic overtures to the voluntary repatriation of BLACKBERRY whenever deemed mutually beneficial.

CONFIDENTIAL

CURRENT STATUS

BLACKBERRY remains unapprehended.

No authenticated reports of civilian interaction have been verified.

Every governmental body engaged in the initiative Operation SUMMER HARVEST has been instructed to accord precedence to the clandestine retrieval of BLACKBERRY, rather than public discourse or engagement.

Personnel reminded:

BLACKBERRY is not to be regarded as hazardous in any capacity whatsoever.

BLACKBERRY is deemed irreplaceable, beyond any conceivable substitute.

Any dereliction to report confirmed observations of BLACKBERRY's presence shall be adjudged a capital offense in accordance with the stipulations of the Watersill Technology Protection Statute 4.
